Darren Wray - Webinar Moderator
CEO, Fifth STEP IT Management Consultancy

Darren Wray is a regular speaker on the global stage about digital transformation, data governance and cyber-security management and successful author. In a career spanning 25 years, Darren has worked with and advised many UK/global insurance businesses, technology giants and UK law enforcement/intelligence agencies. Darren's recent publications include 'The Brexit Readiness Guide', 'The Little Book of GDPR' and 'The CIO Navigator - Business Advantage Through Consistent IT and Innovation'.

Steve Blow
Technology Evangelist, Zerto

Summary: Cloud-based disaster recovery is the new standard for business to minimise downtime and data loss from physical and cyber threats. Hear about how to replicate and migrate workloads to the public cloud in a few clicks and execute a hybrid-cloud strategy without vendor lock-in.
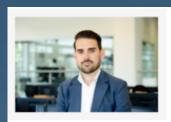

'Cloud data management simplified'

Richard Carr
Cloud Solutions Architect, Microsoft

Summary: Moving data into any cloud provider can be quite a complex task. How can you be assured that your data is secure and that your cloud environment is up to the task? Leveraging our security solutions and the Microsoft Cloud Adoption Framework for Azure you can insure that your data is kept secure today, tomorrow and always.

'Microsoft Azure: Securing your data in a cloud first world'

Steve Hicks
Senior Infrastructure Specialist, Databarracks

Summary: Databarracks shares its experience of setting up disaster recovery in Microsoft Azure vs traditional data centres. We'll cover the differences, the benefits and what to watch out for.

'Five lessons on setting up disaster recovery in the public cloud'
